Emily Jade O'Keeffe

Eye say Emily

HARDLY recognised the glamorous Emily Jade O'Keeffe at the I am Wintergarden winter fashion showing at the Hilton Hotel on Thursday night.

Here was our Em bedecked in the latest black Rose & Thin gown and bespectacled in diamond (well, maybe not) encrusted black-rimmed designer glasses.

What's with the specs? we asked.

"Well, I have been getting into trouble for not saying hullo to anyone who was more than a few metres away from me.

"The problem was I couldn't see them.

"One eye is OK and the other is wonky so here I am with the new look."

Thought you might like to take a look at the new Em.
